JUNAID FAIZ

Full Stack Developer | AI Engineer

Lahore Pakistan • +923106846035 • junaidfaizpk5@gmail.com • linkedin.com/in/junaid-faiz/

SUMMARY

Full Stack Developer with 1+ year of experience building and optimizing Full Stack web applications using React, Node.js, Express.js, Nest.js, Next.js, Socket.io GraphQL and MongoDB, alongside hands-on experience designing LLM-powered features using LangChain and LangGraph. Experienced in developing performant user interfaces, scalable APIs, and efficient database solutions. Proven ability to improve application performance, collaborate on complex dashboards, and contribute effectively in team-driven environments.

AREA OF EXPERTISE

- **Programming Languages:** JavaScript, TypeScript
- **LLM Frameworks & Model APIs :** LangChain, LangGraph, OpenAI API, Anthropic Claude API, Google Gemini API
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Nest.js, Express.js, GraphQL, Socket.io
- **UI Frameworks & Libraries:** Tailwind CSS, Shadcn UI, Bootstrap
- **Backend & Databases:** MongoDB, Prisma, GraphQL
- **Validation Libraries:** Zod, Formik, React Hook Form, Class Validator, Class Transformer

WORK EXPERIENCE

MERN Stack Developer (Cipher Developers) **Jan 2024 - Present**

- Built RESTful and GraphQL APIs using NestJS with Prisma and MongoDB for scalable and efficient backend systems.
- Developed responsive and interactive UIs with React and Tailwind CSS, leveraging hooks and state management for smooth user experience.
- Implemented JWT-based authentication and role-based access control for secure applications.
- Integrated third-party services including AWS S3, SES, PayPal, Stripe and LiveKit to enhance app functionality.
- Optimized performance with lazy loading, code-splitting for maintainable and high-performance applications.

MERN Stack Developer (Techie Tribe) **2 month Internship**

- Developed RESTful APIs with Node.js, Express.js, and MongoDB to support frontend operations.
- Built interactive, responsive UI components in React using hooks and state management.
- Improved performance with lazy loading and code-splitting.
- Integrated third-party APIs to enhance app functionality.

EDUCATION

Bachelor of Science in Information Technology **Sep 2020 - Oct 2024**

University of Education

PROJECTS

Dent-Ment http://dent-ment.com/

Developed a LinkedIn-style professional networking and learning platform for the dental community with social feeds, mentor–student booking, events, live audio group calls, and course management with quizzes. Built a role-based Next.js admin panel for user moderation, community and company management, permissions, and activity logs.

- Built responsive and scalable UIs using React and Tailwind CSS, leveraging hooks and state management for smooth user experience.
- Built RESTful and GraphQL APIs using NestJS with Prisma and MongoDB for scalable and efficient backend systems.
- Engineered AI-powered features using the OpenAI API, including a streaming chatbot with function/tool calling for real-time data retrieval and an AI-driven contract analysis tool combining PDF parsing with legal reference comparison
- Implemented JWT-based authentication and role-based access control for secure applications.
- Integrated third-party services including AWS S3, SES, Stripe, and LiveKit to enhance functionality.
- Optimized performance with lazy loading and code-splitting for maintainable, high-performance applications.

Lubaan Roots https://lubaanroots.com/

An eCommerce website for selling skincare products, including Frankincense oil, with a modern and user-friendly shopping experience.

- Built a responsive frontend using React for product listings and checkout flows.
- Developed the backend with Strapi CMS to manage products, content, and orders.
- Implemented a clean UI and optimized performance for smooth customer experience.

CERTIFICATION

- Full Stack Developer BootCamp at Bitbash
- Advanced Git on Datacamp
- Advanced GitHub on Datacamp
- Advanced React on Udemy
